DAILY PITTSBURGH GAZETTE.

THURSDAY AFTERNOON, NOV. 21, 1833.

THE LATE ATMOSPHERIC PHENOMENON.—By the papers, which have been received from the East and the West, we learn that this phenomenon was visible, so far as our information extends, viz: from Boston, in the east, to Louisville, in the west.

THE WARREN CONVENTION.—We have not lately heard of the Philadelphia and Allegheny county Delegates, who are traveling thro' Starke and Columbiana counties, exploring the country. The responsibility of the decision having been thrown upon them, they seem determined to understand the matter, before they make a decision, which must be very important in its consequences. They deserve the thanks of the community for the time and attention which they have devoted to this business.

MELANCHOLY ACCIDENT.—On Saturday last, a number of men were engaged in hauling a new Steam Boat, owned by Capt. Srodes, off a bar, just below Elizabethtown.—Twelve men, three at each bar of a capstan, were exerting all their force, when one of the bars broke, and, there being no pawls, the capstan recoiled, swinging the bars around with great violence, wounding Patrick M'Laughlin severely; also, a man, of the name of Spears, Garret Guest, and several others.—M'Laughlin died in a short time—Spears' recovery was, for some time, very doubtful, but he now is recovering—Guest was severely, but not dangerously, wounded.

There was gross carelessness in the use of a capstan without pawls. We trust that the often ridiculed law of Deodands will be enforced against this defective and dangerous machine—"If an ox gore a man, that he die, the ox shall be stoned, and the flesh shall not be eaten."

PENNSYLVANIA CANAL.—The following statement gives an encouraging exhibition of the business on the western section of this great improvement. The gentleman who handed it, assures us that the business continues gradually to increase. Last night, two boats arrived, which paid, together, upwards of one hundred dollars of tolls—these are not embraced in the following statement, which comes down only to Saturday, the 16th inst.

COLLECTOR'S OFFICE, PITTSBURGH,
November 18, 1833.

This day we have brought up the amount of our business, for the first 16 days of this month, and find, although late in the season, that our business and tolls are rather upon the increase—

Tonnage, from the east, Nov. 1st to 16th, inclusive, 2,672,992 lbs.—Also, wood, 113 1-2 cords; bark, 24 1-4 cords; hay, 16 tons 4 cwt.; passengers, miles traveled, 2,201.

In the same time, we have sent eastward, flour, tobacco, whiskey, castings, window glass, wool, rags, ginseng, nails, feathers, &c., 421,790 lbs.

TOLLS RECEIVED FROM NOV. 1 TO 16.

Pittsburgh, - -	$439,31¾
Leechburgh, - - -	216,68½
Blairsville, - - -	1,014,38¼
Johnstown, - - -	171,15⅝
Total - - -	$1,841,24¼

To this, there must be added the amounts of the clearances issued to other places on the line of canal which do not come for entry at Pittsburgh.

The Globe, the official paper, has the following remarks, in relation to the U. S. Bank:—

"We have, hitherto, had nothing to do with runs upon Mr. Biddle's Bank, in the East or the West. But we tell him plainly, if he persists in his determination to bring embarrassment on the country, and ruin on his debtors, by exorbitant curtailments, beyond what is necessary to pay up the public deposits, we will, by every means we can lawfully use or suggest, make his Bank feel the effects of his reckless course. In more ways than one can the people of this country make their power manifest, and the trepidation displayed in the Bank Hive, when the people, in a portion of Kentucky, by a spontaneous movement, began last year to cash its paper, has taught us how to make war with effect, whenever the conduct of the Bank shall make it necessary or expedient."

To which the New York Commercial Advertiser has the following reply:—

"There is no mistaking the meaning of this paragraph. It is a deliberate threat of creating a panic among the people, and a run upon the Bank and its Branches. It is an atrocious menace, on the part of "the government," of an act in contemplation so diabolical, that it ought to arouse the indignation of every virtuous citizen in the Union. A run upon the Bank! LET THEM TRY IT!! We know that the Bank is prepared. And not only this, but we know too well the condition of the country banks in this State, to doubt the result.—Such are their over issues, and such the lack of the precious metals in their vaults, that in 4 weeks the Branch in this city could break three fourths of the country banks in this state. We can tell the Globe, and the Kitchen Cabinet, and the President of the United States, that it will be a fearful experiment for them to enter upon;—fearful for the public—fatal to themselves—to the New York Safety Fund—and to the aspiring individual who claims the honor of creating that splendid and imposing financial humbug."

Philadelphia and Trenton Rail Road.—This Road was opened on Thursday, from Bristol to Morrisville, with suitable ceremonies. A large party of gentlemen, from the city and surrounding country, participated in the enjoyments of the occasion, and were fully gratified with the success of the enterprise. The Road promises to answer the most sanguine expectations of its friends, and reflects the highest credit upon Mr. Kneass, the Engineer.—*Poulson, Nov.* 18.

IMPROVEMENT OF THE ALLEGHENY.

We have noticed with great interest the agitation of a subject in the city of New York intimately connected with the improvement of the Allegheny river. We allude to the proposition of connecting the Genessee and Allegheny rivers by a canal. The termination of the canal would, in all probability, be at or near Olean, in the state of New York. It would be about 90 miles long, and the probable cost of construction is estimated at about $100,000. This matter will be early laid before the New York legislature, at the ensuing session, and we have very little doubt from the great success of the canal system in that state, that the proposed canal will be promptly authorized. If so, what a prospect does it offer for our contemplation! It will not only be the connecting link between the Allegheny and Genessee rivers, but between the great northern lakes and the Ohio and Mississippi, and between the Gulf of St. Lawrence and the Gulf of Mexico.

This great thoroughfare would be rendered perfect and constant by a small expenditure of money in improving the Allegheny river, certainly for a sum not half the estimated cost of a canal between the Allegheny and Genessee! Was there ever a subject of greater national concern than this? We answer there is not in the union, or perhaps in the world.

The Grand Erie Canal crosses the Genessee river at Rochester, a distance of from 90 to 95 miles from Buffalo, on Lake Erie. This improvement of the Allegheny, together with the above contemplated canal will, therefore, of course, be a connection with the Grand Erie Canal, by means of which there will be an outlet into Lake Erie, and by the Welland canal into Lake Ontario and the St. Lawrence. Then by the other end of the Erie canal, there will be a thorough water communication, by the Hudson river, to the city of New York, and by the Champlain canal with Lake Champlain. In short it will be a link that will connect the vast interests of the great and growing west and southwest with the whole improvements of the state of New York, and the great inland seas of the north—a mighty chain of intercourse, by water communication, stretching over at least six thousand miles of the Union. We have not time, nor is it necessary here, perhaps, to show all the vast inland channels of water communication that are open, and connect themselves with the Ohio and Mississippi:—But let the reflecting reader examine for himself and he will find them, like the great monster of the deep, stretching out their arms in every direction, and grasping within their embrace the majority of the states and territories of the Union.

No reflecting mind can contemplate the subject in view of all these facts, and for one moment doubt of the great national importance of improving the Allegheny river, so as to effectuate the connection between the Allegheny and the Lakes. New York, we believe, will construct this canal if the Allegheny can be improved, and as a national object, we think the national government ought not to hesitate about granting an appropriation for that purpose. Let the people of the states of New York and Pennsylvania take up the subject—let their representatives go heart and hand in urging the matter forward in Congress, and it will assuredly prevail. Let there be no rivalry in our great city interest, because there need be none, and we would venture any consideration that an appropriation from the general government can be obtained for this object, than which, we believe, there is none more important in the United States. In that event, commerce, at certain seasons of the year, could pass to any point through the whole country, without the dangers of the open sea navigation, and particularly so, in the event, should it ever take place, of a war with foreign powers or states—our commercial intercourse could be kept up, through this medium, and by means of the state improvements, with all the principal cities on the sea board. We might occupy columns with reasons, powerful and cogent, why the general government should do something in this measure, and do it speedily; but want of room prevents, and further, we are satisfied that all who will examine the matter, and think of it, will find enough to satisfy them of its importance, without our aid.

It is mentioned in the Courier and Enquirer that a company in Pittsburgh stand ready to make the Allegheny a good steam boat navigation to Olean. The practicability of effecting it, we have no doubt, would induce many to feel disposed to enter into the project, but there are difficulties in incorporating companies for purposes of that kind, and giving them the control of such a great natural highway, that might be hard to encounter. Let the states interested in this improvement, take up the matter in Congress, and it can be more speedily and more advantageously accomplished. The subject was brought before Congress in the winter of 1831-32, by a few petitions from this and some of the adjoining counties, and it was within a very few votes of going into the general appropriation bill, for a share of the public appropriations. Let the citizens of New York and Pennsylvania unite in memorializing Congress on the subject, and we have no fears as to the result. We hope that Col. Webb will give the matter some further notice, and that our brother editors generally will bestow upon the subject some attention.

We give below the article alluded to, contained in the New York Courier and Enquirer.—*Venango Democrat.*

From the New York Courier & Enquirer.

GENESSEE AND ALLEGHENY CANAL.

Many new and most interesting statements and facts were made at the canal meeting, held at the Shakspeare Hotel, on Friday last. The length of the canal will be about 60 miles, through the most densely timbered and fertile part of the state.—The lumber alone, it was contended, would yield to the revenue of the state more than the interest of the sum required to be expended. An abundance of water can be brought to the summit level from Ischua creek and other streams. It was shown that immense quantities of lumber would seek the New York Market, where it now sells for six times its price in many of the Genessee and Allegheny vallies. At this time, it is computed that from four to five millions of dollars' worth of lumber passes down the Allegheny yearly—that the price of lumber is constantly advancing in this city, while the number of stores and dwellings, is rapidly increasing—that it is all important to our city that some new and abundant resource should be obtained to meet the increasing demand—that inexhaustible quantities may be derived from this source, as soon as this canal is completed. It was shown that a great commerce would be opened into the vallies of the Allegheny, Ohio, and Mississippi, with our state, by means of this canal—that it would have the advantage of distance, despatch, safety, and economy, in reaching our commercial mart, over any other rout—that so great an influx from forests, farms, mines, and manufactures, must give a new impulse to the growth of New York, and materially advance in value the property of our citizens. Two surveys have been made; the highest estimate of costs, with stone locks, is $900,000.—Steamboats, in high freshets, have already ascended the Allegheny from Pittsburgh to Olean, a distance of 260 miles. A company at Pittsburgh are ready to give bonds to make a good steamboat navigation to Olean, as soon as the New York legislature shall have authorized the construction of this canal. The distance from Pittsburgh to Cincinnati is 455 miles by the river; a voyage may be effected, by the proposed rout, from New York to Cincinnati, in ten or eleven days, and thus avoid trans shipment at Lake Erie, the storms in the autumn, and the ice in the spring, with the advantage of less time.

Produce and merchandise are now carried from eight to nine hundred miles in wagons, to and from the Erie canal. It must be evident that settlements would be promoted, and production greatly increased, by this readier and cheaper transportation.

In addition to these arguments, the inhabitants, of this secluded section, having contributed their full share to all the internal improvements of the state, through more favored counties ask some relief from the inconvenience and sacrifices attending their peculiarly sequestered condition.

The New York Commercial Advertiser says—"I TOLD YOU SO." We do not like *political* antimasonry any better than we do freemasonry.—Least of all, do we like the complexion of Massachusetts antimasonry. We were sorry, moreover, that Mr. Adams should have permitted the use of his truly great name, as a candidate for Governor. But, having allowed it thus to be used, there could not possibly have been a greater act of political folly, than for the National Republicans to nominate a third candidate, however high his character, or sound his talent. In Mr. Adams, they could not but recognize a profound statesman, an experienced diplomatist, a pure and honest patriot, whose whole life has reflected honor upon the commonwealth that gave him birth. All these attributions it has been their pride to acknowledge; and it is a fact which they, as well as every body else, must know, that it was to sustain the principles which such a man was deemed most fit to uphold, that the National Republican party was organized. He was its main pillar—and how, under such circumstances—when no valuable purpose was to be attained by electing another candidate, however meritorious, they should abandon him, merely because he had been selected by the Antimasons, is passing strange. They have fallen into the very error, so often and so justly imputed to the Antimasons, in forgetting the great interests of the State, to run after, and give importance to, an institution already crumbling in the dust by the weight of those incrustations that overhang its walls, and have buried whatever of usefulness it may have been at any time auxiliary, in rubbish and ruins. The consequence is, an overwhelming defeat of the National Republicans, a result which we foresaw and foretold; and, for doing so, were sneered at by our friends in Boston. Will they now believe that we understand Antimasonry better than they?

MONEY—SPECIE—STOCK.

We copy the following remarks from the New York Daily Advertiser, of Nov. 21:

"MONEY.—The prediction that money would be plentier, after the removal of the United States' Deposits, has not been realized. The local banks in this city are indebted to the Branch Bank, nearly a million of dollars, and the amount, instead of diminishing, rather increases; and, although the U. States Bank does not call for specie, yet the large indebtedness compels the other banks to discount with great caution, consequently money continues scarce.

SPECIE.—Although the U. States Bank do not call on the local banks for their large balance in specie of near a million of dollars, yet the effect of the operation is, that whenever there is any call for specie at the north, the east, or the south, the local banks are, of necessity, compelled to supply the call; the branch being the creditor bank, turn over the order to the debtor banks. There has been considerable demand, during the week, for specie, for other cities, but more for export.

STOCKS.—Rail Roads, New Orleans, Delaware, and Hudson, and Morris have all fallen very much during the week, while United States Bank is almost the only stock that has held its own. The Bears have had a decided advantage; Mohawk, during the week, fell from 116¼ to 113 3-4; Saratoga from 116 to 114 3-4; Boston from 108¼ to 105 3-4; Utica from 108 to 106 3-4; N. Orleans city from 111¼ to 109 3-4; Delaware and Hudson from 122 to 117; Harlæm from 79 to 75; Morris Canal from 58 to 52. Some of the local banks, viz. Manhattan, have also declined. The operations in United States Bank have been large, at 107¼, at about which it has stood very firm, during the week, and numerous buyers on time. We have rarely noticed a week of so general a depression in stocks, and, at the same time, the operations have been to an immense extent. The depression indicates clearly a pressure in Wall street."

Massachusetts Election.—Two hundred and twenty two towns, already heard from, give for Davis, 21,780 votes; Adams, 16,200; Morton, 13,493; Allen, 2,460.

In Boston, 28 National Republicans are elected. Four Senators are elected from Suffolk, viz: Adams, Everett, Putman, and Foster; three of these are National Republicans, and Antimasons: Mr. Foster is a Jacksonian.

"The Atlas states that, as far as heard from, 170 members of the House of Representatives are National Republicans, 79 Antimasons, 45 Jacksonians, and 8 Workingmen. The same paper remarks: "There are six National Republicans chosen to the Senate in Worcester—two in Hampshire—and three Antimasons in Norfolk. In Plymouth, Essex, and Middlesex, there is certainly no choice. Probably no choice in Nantucket and Bristol. In Franklin, appearances are in favor of Mr. Wells. In Hampden, no choice."

The New Orleans Bee, of the 1st inst. gives the following extracts from Mexican papers to the 5th October, from which it appears that the result of the contest was rendered almost certain.

MEXICO, October 5.—We are glad to have it in our power to lay before our readers the results of the movements of the federal army, commanded by the hero of Zempoalo; those results are decidedly favorable to the holy cause of the federation.

The chiefs of the rebels having been informed that the general in chief, had come out from San Miguel de Allende with his division, and knowing also, by their spies, the movement of the federal troops from Zacatecas and San Luis, determined to oppose their united forces, and marched wih all his cavalry from Guanaxuato. But the President, keeping a vigilant eye on their movement, marched towards the town of Silao in order to invest the iraitor Duran.

Duran began to open a fire with all his artillery, against the division of his excellency, who on his side returned a heavy cannonading. In a few hours he made such havoc in the ranks of the faction, that they were obliged to retreat the same evening; they rallied at Guanajuata where they fortified themselves. The project of the faction being thus baffled, the other division found no difficulty in uniting to the troops commanded by the general liberator division of Zacatecas, operated a junction on the 29th, and that of St. Luis on the 30th Sept. So formidable a force being now united, there is but little doubt of the early defeat of the rebels.

MEXICO, Oct. 5.—The following account, from Gen. Mejia, under date of Silao, Sept. 29, was bro't last night by an extraordinary courier from the federal army.

Having been informed that the enemy contemplated attacking the hacienda de Cerritos, about half a league distant from this town, with all his forces, amounting to 1,200 troops of infantry and 900 cavalry, I went out with my division, drew them into a line of battle, and opening the fire of my artillery continued it until five o'clock in the afternoon, and having silenced the enemy's fire came back to my quarters. We lost in the affray only three horsemen.

We were preparing to attack the rebels, to day, and although our forces were sufficient to defeat them, the President thought it advisable that we should wait for the division from Zacatecas, so as to inflict upon the enemy a more decisive blow, but the faction withdrew early in the morning, a few hours before the arrival of the Zacatecas division.—We might have opposed their movements, but as we had detached one thousand troops of cavalry to protect the arrival of the auxiliary division, we did not think it proper to attack them with the infantry alone.

Montezuma is to pass this night four leagues from here; we will join to morrow and shall be able then to commence operations against the enemy.

SAN LUIS POTOSI, Sept. 26.—Yesterday, Gen. Estevan Montezuma marched against the faction at Guanaxuato, with 2,500 patriots and 10 pieces of artillery, determined to conquer or die.

COMMERCIAL.

NATCHEZ MARKET, Oct. 31.

The weather has been very pleasant for the past week, although the nights have been quite cold. We have had some heavy frosts, and one night a little ice. The weather, in fact, has been remarkably cold for the season.

BAGGING AND ROPE.—These articles have been sold a shade lower this week, but most of the holders still ask former prices. We quote Kentucky Bagging from 29 to 30 cts., and Rope from 11 1-2 to 12 1-2. There has been an arrival of 300 pieces Dundee Bagging, and 600 coils Kentucky Rope. The Bagging is held at 24 to 26 cts.

BACON—Scarce and selling at retail from 8 to 10 cents. No hams at wholesale.

COTTON—This article has declined from a half to a cent per lb. Prime crops are quoted at 17, but we have heard of no sales. Streets are worth from 15 to 16 1-4. Shipped since the first of September, of the new crop, 10,763 bales.

COFFEE—Plenty, and selling from 15 to 16 cts.

LARD.—None at wholesale. Retail price 12 1-2 cents.

PORK.—None of any description at wholesale.

SALT.—Plenty. Coarse, sack, 2,50. Fine $2 75 to 3,00 at retail.

SUGAR.—Scarce, and selling from 10 to 12 1-2 cents.—*Natchez Courier.*

Extract of a letter to a commercial house of this City, dated—

New Orleans, Oct. 28.

"We regret to state that our cotton market to day has been *excessively dull.* The buyers seem determined now not to come again into market, unless at a reduction in prices, and we fear that they will *now decline* before much business will again be done. The stock of cotton has accumulated considerably, and they who sell first, will do the best. Havre accounts reached here to day to the 5th Sept., and they are unfavorable. Very little business was doing in that cotton market."—*Louisville Herald.*

Extracts from the Philadelphia Market, ending Saturday Evening, November 16, 1833.

COTTON—The only arrivals during the week are 62 bales from Charleston. The sales of the following parcels have been reported, 25 bales Georgia Uplands, new crop, at 16 3-4 a 17 cts.; 25 bales, new and old do., at 15¼ a 16 3-4 cts.; 50 bales Louisiana at 15 1-2 a 16 1-2 cts.; a small parcel of prime Virginia do., at 16¼ cts.; a lot of damaged do., at 8 1-2 cts.; and a lot of repacked South Carolina at 12 3-4, all on 4 months credit. Advices via New York, from Liverpool, to Oct. 8th; sales there the preceding week amounted to 13,910 bales, at an improvemet in price of about 1-2d sterling per lb. The ship Susquehanna, at this port, puts us in possession of 1 day's later dates. No material alteration in prices from the former accounts.

FLOUR AND MEAL—We have no change to note in the price of superfine Flour. The export sales amount to about 4,000 bbls. in all the week at $5 75, with the exception of two parcels of 900 bbls. of extra quality and choice brands which brought an advance of 12 1-2 cts. on this price; a lot of middlings was sold at $3 50; sales of Rye Flour was made early in the week, at $3 75; and, on Friday, 200 bbls. was sold at $3 70, which we quote as the market price. Corn Meal, in bbls., has declined; two parcels, in all 300 bbls., have been sold at $3 25. No sales of hhds. reported.

SEEDS—Several parcels of Clover seed have been sold at various prices, ranging $4 75 a 5 75, the latter price having been paid for selections from choice lots; 30 bushels of Flax seed was sold at $1 60.

SUGARS—The following sales of Sugar have been reported, 200 barrels Brazil Sugar, terms not made known: 100 hhds. P. Rico, do., at 8 cts., 6 months, and 100 boxes brown Trinidad do., at 8 a 8¼ cts.

TOBACCO—Sales of 89 ceroons St. Domingo tobacco, rates not transpired, and 50 hhds. Kentucky do., last week, not reported, terms also unknown. The stock of Kentucky Tobacco in first hands does not exceed 160 hhds., 20 of which are in the hands of the inspector.

WHISKEY, &c.—Rye Whiskey, in bbls., is selling at 29 cts., and do. in hhds. at 27 1-2 cts., N. Orleans Rum at 60 cts.; Roussillon Wine at 40 cts. On the Schuylkill side Apple Whiskey is selling at 25 cts., and Rye do., in bbls., at 29 cts., delivered in the city.

WOOL—The stock is fast decreasing, about 10,000 lbs., of various grades, has been sold by one house at from 42 1-2 to 48 cts.; and upwards of 20,000 lbs., by different dealers, at our quotations. —*U. S. Gaz.*

The Ship St. Louis sailed from Natchez on the 27th, with a cargo of 2,700 bales of cotton for Liverpool. She was towed down the river by the Steamboat Walk-in-the-Water. On the 27th the British ship Mary arrived at Natchez with a cargo of salt from Liverpool. The present year has introduced a new era in the commerce of Natchez.—*Louisville Herald, Nov.* 13.

The atmospherical phenomenon has been the cause of much alarm and dismay to many people. Some laughable tales are told of the effects it produced.

A fellow, near Georgetown, who had robbed a henroost, and was carrying off his booty, is said to have been so much frightened, at what he believed to be a threatened *judgment*, that he ran back, and was caught in the act of returning his plunder. —*Alex. Gaz.*

It is a belief as old as the days of Virgil, who mentions it, that such a phenomenon as was witnessed on Wednesday night, betokens high winds; and the weather wise say that the late display of meteors is a sign of a hard winter.—We shall see. —*Alex. Gaz.*

The Baltimore Republican leads off the contemplated attack on Mr. Duane. If the belligerents will wait until the committee shall call for and obtain his written statement on the subject of the deposits, they may deem it advisable to let him alone—it would be more safe to overthrow his positions, if possible, than attack him in advance.—*N. York Star.*

Lykens Valley.—A few days since, we indulged in a trip on the Lykens Valley Rail Road, from Millersburg to the coal mines at Bear Gap; and seldom have we had a more pleasant excursion. This valley is destined, ere long, to be one of the richest in Pennsylvania. Its coal mines are apparently inexhaustible; and the facility which the rail road furnishes for conveying the coal to the Susquehanna, and to the canal, will soon enable the proprietors to compete successfully with the most enterprising Pottsville miners. A town is already laid out in the vicinity of the mines; and ere long a beautiful village will arise, where late was nothing but a mountainous wilderness.—*Liverpool Mercury.*

Vessels are much wanted at this time on the Schuylkill. Large quantities of coal have been purchased, for Eastern ports, that cannot be forwarded in consequence of the scarcity of vessels.—Freights to New York readily command 131½; to Boston, Providence, &c., 162½ to 175.—*Phila. Chron., Nov.* 15.

A specimen of gold, from the gold region of Georgia, is said to have been lately discovered, weighing 199 dwts., whereof two thirds were of the pure metal.

The traders of N. Carolina think the cotton of that State undervalued, and consider the State as not properly estimated as a grower of that staple. They say their cotton has, in some instances, sold better when offered with cotton from other States than when offered by itself—and the North Carolina cotton is among the exports from Cheraw and Petersburg.

The Shooting Stars.—Captain Dixey states that the Falling Stars were seen at the distance of 130 miles from the coast.—*Poulson.*

HARRISBURGH CHRONICLE—EXTRA. *Published, Twice a Week, by Hugh Hamilton & Son.—Reports of Proceedings of the Pennsylvania Legislature.*—The Harrisburgh Chronicle will contain a concise and faithful report of the proceedings and debates of the Legislature of Pennsylvania, which will commence its session in Harrisburgh, on the first Tuesday of December next. The Senior Editor will report in one of the legislative branches, and an experienced and competent Reporter is engaged to attend in the other. Such reports will be furnished as are calculated to put the reader in possession of a history of the Session of 1833 4; to do which, the faculty of condensation shall be employed for the benefit of the reader, even though it may sometimes be unpleasant to the legislator; for the topics that must, of course, come up for discussion, will be more numerous, important, and diversified than they have been heretofore, and there is every probability that the exciting questions that must necessarily be agitated in Congress, will also become exciting questions in the Legislature of the S ate, and add to the interest of the Session.

The proceedings of the Legislature of the State are full of interest to the citizen, and an intimate acquaintance with them is almost an indispensable requisite, when he comes forward on election day to exercise his sovereignty in the capacity of a voter. Hence every citizen ought to possess a fair and faithful report of the proceedings, and it is hoped that those who do not choose the Chronicle will take some other paper for this purpose.

TERMS.—For the Session alone, twice a week, in advance, - $2 00
For the whole year, in advance, 3 00

☞ Persons furnishing six subscribers, and enclosing $10, shall have a seventh copy forwarded regularly for their trouble.

A Partner Wanted.

THE Subscriber, being possessed of a valuable property in the Borough of Brownsville, in the county of Fayette, and state of Pennsylvania, in a public part of the town, consisting of two and a half lots of ground, bounded by Water street on the north, and the National Road on the south, say 150 feet on each, by 180 feet in depth, on which are erected one large three story Brick Dwelling House, one two story Brick Dwelling House, one Brick Foundry, one three story Stone and Brick Engine Shop; the whole of which are finished for the purposes intended. A considerable business has been and still is carried on in Manufacturing Steam Engines for Steam Boats, Mills, Furnaces, &c. &c.; the Castings for which are made at the foundry; also, other Castings, such as Grates, Stoves, and a variety of other articles, all of which are in demand. The subscriber is fully sensible that an extensive and profitable business could be carried on by an accession of Capital: he therefore wishes to sell one half the above described property to some person as a partner, who would have a few thousand dollars. Brownsville is well situated for such an establishment, being on the Monongahela river, which is navigable the greater part of the year: plenty of good stone coal in the whole vicinity, and in the neighborhood of a number of Furnaces, and as healthy a situation as any in the United States. A further description is deemed unnecessary, as any person wishing to purchase will come and view the premises.

$10 REWARD.

ABSCONDED, for the second time, on the 2d instant, an indented apprentice to the Coppersmith business, named SAMUEL RODGERS, he is aged about 20 years, and 5 or 6 months; is about 5 feet 8 inches high, dark hair, gray eyes, fair complexion, and may be known by his very forward and boisterous manner, particularly among his shopmates; he took with him a light olive cloth surtout coat, a deep blue cloth straight bodied coat, one pair blue cloth pantaloons, one pair Kentucky Jean pantaloons, a black fur hat, considerably worn, together with a quantity of other clothing.

The above reward, but no charges, will be given to any person returning said apprentice to his masters, in Pittsburgh. All persons are forbid harboring, trusting, or employing said apprentice, as the law will be rigidly enforced against any person for so doing.

DAILY PAPER AT HARRISBURGH.—The subscribers propose to publish a Daily Paper during the coming session of the Legislature, provided a sufficient number of subscribers are procured to warrant the expense. The necessity of a daily journal at the seat of government, impartial as to politics, and giving the debates of both houses, fully, faithfully, and daily, has long since been acknowledged. Such a paper cannot be sustained in Harrisburg, unless the citizens of other sections of the state come forward and aid in its support. At the present stage of our improvement system, and fiscal conserns of the commonwealth, a daily paper, the statements of which can be depended upon, published at the seat of government, must be a desideratum of all parties. We therefore shall expect that exertions will be made in every section of the state to procure us subscribers.

The Daily Pennsylvania Intelligencer will be printed on a half imperial sheet, for five dollars (in advance,) during the session. It will not only contain full and impartial daily reports of the proceedings of the Legislature, but will contain a summary of the proceedings of Congress, besides news and miscellaneous reading. ☞Post Masters and Agents procuring four subscribers, shall receive a fifth copy gratis.

FAIRBANK'S PLATFORM SCALES.

THESE scales are constructed upon an improved principle; are fitted up with great care by the manufacturers, and warranted to weigh with accuracy from half a pound to 12,000. Being placed in, and forming part of, the floor, the process of weighing is performed with ease and facility, while the space they occupy may be improved as a passage way or for other purposes.

The construction of these scales is such that they are little liable to derangement of wear, and their perfect operation will be guaranteed for any reasonable length of time.

The usual objection, that a new method of weighing cannot be safely entrusted to unskilful hands, is obviated by the use of the improved BALANCE, concerning which are the following remarks in the Journal of the Franklin Institute, of the state of Pennsylvania, for the promotion of the Mechanic Arts, for June, 1833. (Edited by Thos. P. Jones, M. D., late Superintendent of the Patent Office, at Washington, Professor of Mechanics in the Franklin Institute, &c.

"The Messrs. Fairbanks, some time since, obtained a patent for a Platform Weighing Machine, and this mode of adjuating and graduating the Beam of the Balance, and the weights, was devised by them with a view to its employment with the before mentioned machine. We have had an opportunity of examining one of their balances, and have been much pleased with it: this examination, however, was not necessary to the conviction that it possesses a just claim to the character of a real improvement, the whole arrangement being so simple as to enable any person to perceive that it is well adapted to the purpose contemplated, that of facilitating the business of weighing, and more especially of heavy articles."

The subscriber, as Agent, will receive orders for the above Scales, which will be made in this city to order. They can be seen at his Warehouse, No. 84, Front street.

SALE OF REAL ESTATE.

THE Subscribers, Trustees of the New Philadelphia Society, at Phillipsburgh, Beaver county, Pennsylvania, offer for sale the following property, to wit:

1	tract of land	containing	330 acres
1	do	do	330
1	do	do	67
1	do	do	7
1	do	do	40
	other lots, containing about		6

The above lands lie in one body, fronting about two miles upon the Ohio river—immediately opposite the mouth of Big Beaver creek, and the Beaver Division of the Pennsylvania Canal. The land is rich, and a part of it under a high state of cultivation—its location pleasant and healthy. The improvements upon the same are valuable, including the town of Phillipsburgh, late the residence of Count Leon, and the New Philadelphia Society. The town contains about 40 Dwelling Houses, now in order; some of them brick houses and two stories high. A large and spacious Hotel, a Store house, Church, a number of Shops, for mechanics, Stables, Barns, and other out houses. Also, two large new buildings, lately erected, but not yet finished, one of brick, the other of frame (the latter suitable for a manufactory) a very extensive public garden, and also fruit trees of various kinds. The property has also attached to it the right of a ferry across the Ohio, which is valuable, and becoming more so every day.

The above property is situated in the midst of a wealthy and prosperous country, distant about 28 miles below Pittsburgh, and one mile from Beaver, the seat of justice for Beaver county—and having a view for many miles up and down the Ohio, and of the country to a great distance around.

The subscribers are confident in saying that few situations could be found, presenting greater facilities to the farmer, mechanic, the manufacturer, and others—a soil rich and productive—the neighborhood abounding in coal—well timbered and watered, and, by means of the Pennsylvania Canal, and steamboat navigation, a cheap and ready conveyance to market, and a communication with other places is ensured.

The property is susceptible of divisions into farms, or for the location of new towns, or for the extension of the present one.

Should it not be sold on or before the first day of January next, it will then be offered at public sale, upon the premises, to the highest and best bidder.

It will be sold in a body, or in parcels, to suit purchasers.

Terms of sale will be reasonable.

Information can be had by enquiring of the subscribers, two of whom live in the neighborhood, and one on the premises.

PERIODICALS.

AMERICAN RAILROAD JOURNAL, and Advocate of Internal Improvements, which is designed as a repository of the accounts of the rise and progress of numerous works of Internal Improvement, in the United States particularly, and in other parts of the world generally. The work is published weekly, and forms a large octavo volume each year, of 832 pages of 3 columns each, for $3 per annum, in advance.

New York Farmer, and American Gardener's Magazine. This work is designed for the agriculturist, and will be found to contain much, both interesting and profitable, to those who cultivate the soil as a business, or merely a garden for amusement. Published in monthly parts of 32 large octavo pages, with three columns each, at $3 per annum, in advance.

Mechanics' Magazine, and Register of Improvements and Inventions. To the Mechanics of the United States—In this populous and enlightened country, almost every description of persons can obtain knowledge and amusement connected with their peculiar pursuits, through the medium of the Journal or Magazine, especially devoted to their interests. The Theologian, the Farmer, the Philosopher, the Sportsman, and even the Plough Boy, has each his Journal, where he can find a record of the passing events of the day, connected with his peculiar avocations and recreations. Hitherto, the Mechanics (who form a large and most important portion of the community) have had no Journal, to which they could turn, with the certainty of finding that information they desire, no periodical of which they could say: 'This is ours, and for us.' In the hope that the attempt to supply such a want at a price so reasonable as to be within the reach of all, will meet with your active support, the subscriber proposes to publish, on the first day of each month, a Mechanics' Magazine. It will contain a well digested selection of the most useful and interesting articles in the London Mechanics' Magazine, London Register of Arts and Sciences, Repertory of Inventions, Library of Useful Knowledge, Journal of the Franklin Institute, and other works, connected with the arts and manufactures, published in this country and in Europe, accompanied with numerous and well executed Engravings. Its pages will be open for the communications of all, and especially for those of the practical artisan, to whose interest it will be particularly devoted. The Mechanics' Magazine will contain, also, a due portion of the occurrences of the month, Scientific and Literary Reviews of Books, Anecdotes, Economical Receipts, Reports of the state of Mechanics' Institutions, and other Scientific Societies in this state and other countries. To be published monthly. Each succeeding number will contain 64 pages, handsomely printed, and stitched in a neat cover. SATIN BEAVER HAT MANUFACTORY,

NO. 6 ST. CLAIR STREET,
PITTSBURGH.

WILSON & SMITH, from N. York,

RESPECTFULLY inform the citizens of Pittsburgh and the neighboring towns, that they have commenced the manufacture of the above beautiful and elegant article, so much admired and worn throughout Europe, and the principal cities in the United States.

W. & S. beg leave to observe, that, after various experiments, they have at last succeeded in bringing this Hat to the highest state of perfection, and they can assert, with confidence, that in point of color, lightness, elasticity, durability, and general beauty of appearance, they cannot be surpassed by the most expensive Hat that is made. Gentlemen are invited to call and examine them, and judge for themselves.

Wholesale Dealers supplied at the same prices as in the New York markets.

DOCTOR ROBERT'S
☞ *WELCH MEDICAMENTUM.* ☜

FOR the cure of Dyspepsia, Liver Complaints, Jaundice, Cholic, Fever and Ague, Dysentery, Headach, Loss of Appetite, Flatulence, Hypochondria, Hysterics, Dropsical Complaints, and Heartburn, It also prevents all Bilious disorders, and removes habitual Costiveness. Asthma, Strangury, Gravel, Rheumatism, Gout, and Impurities of the Blood.

A person who uses this Medicamentum will not require the use of the lancet, or any means of the healing art. It restores and revives the animal spirits, invigorates the system, removes nervous tremors, obtunds rheumatic and anthritic pains, and prevents their return. It cleanses the stomach of all morbid humors, which cause indigestion, acidities, headach, and lowness of spirits; cures all bilious disorders, and all cholics of the stomach and bowels, almost immediately; inspires cheerfulness; gives comfort to the dropsical; takes away palpitation of the heart; gives circulation to the blood; restores bloom to the sallow or sickly cheek, and plumpness to the meagre habit; purges without pain, and banishes all cause of fever of every kind. It acts on the stomach, that great reservoir of the haman system, a diseased state of which causes all diseases. No alteration in the usual habits of life is required, but the abstaining from distilled ardent spirits.

CERTIFICATE,
From Rev. Derick Lansing, D. D., Pastor of the Second Presbyterian Church in Utica.

Utica, Jan. 6, 1830.

To Dr. Hitchcock.—Dear Sir: I have always been one of the number of those who have placed little confidence in *nostrums* or *specifics*, and for this reason, although I saw your advertisement of the Welch Medicamentum, I could not bring my mind to consent to use it. My sufferings, from indigestion, during the past summer, were so severe, as materially to affect my comfort, and my capacity for usefulness. I have reason to thank you, sir, that, on hearing of the state of my health, you kindly sent me your Medicamentum. I have taken it faithfully, and with entire success. I have not been visited with one of those turns of distress, which before were weekly periodical, since I began to take your valuable medicine. Could I receive the same relief which I have hitherto experienced, on condition of taking it for life, I should cheerfully comply with such condition. Your's, very truly, D. C. LANSING.

ANTI-DYSPEPTIC ELIXER.

ONE of the most agreeable and efficacious Medicines ever discovered for the permanent cure of those chronic states of derangement of the stomach, constituting that miserable disease called Dyspepsia.

The basis of this Elixer s vegetables, and perfectly innocent in its operation; it destroys that sour state of the stomach, the instant it is taken, and stops the morbid secretion, by giving strength to the muscular fibre of that important organ, by which means the peristaltic motion of the intestines is increased, and the costiveness obviated; a new action is given to the system, which puts an end to a train of distressing nervous sensations.

Another form of the disease in which the Elixer is admirably calculated to relieve, is the decline of fever, where the stomach will not bear the ordinary strengthening medicines indicated in such cases, it has the surprising effect of giving vigor, and restoring the natural secretions of the body, without increasing the febrile state. Not the least danger is to be apprehended from exposure to cold, while under the use of this medicine, nor will it interrupt necessary employment of the patient a single hour.

☞ A number of cases of cures performed by the Anti-Dyspeptic Elixer in the vicinity of Pittsburgh can be given.

COMPOUND SYRUP OF LIVERWORT,

A SAFE and Valuable Medicine for Coughs, Spitting of Blood, Consumption, and Liver Complaints.

Most of the medicines made use of for the above diseases are of a stimulating nature, composed generally of Resins and Balsams, in alcoholic solutions, which, although sometimes giving temporary relief, in almost every instance where they are freely used, aggravate the disease, and reduce the strength of the patient.

This article possesses superior advantages over these preparations, its action being of a tonic, invigorating and strengthening nature, thus overcoming the disease by promoting expectoration, and gradually increasing the strength of the patient, and thus, without being attended with any unpleasant effects: it also agrees with the stomach, in a cases, and is a pleasant medicine to take.

TYPE FOUNDRY.

HAVING purchased of Mr. Richard Ronaldson, his long established and very extensive Type Foundry, the subscribers have formed a co-partnership for the purpose of continuing said business, and for the convenience of their friends and patrons, have removed their establishment to a more central part of the city. As it is their intention to keep on hand a good assortment of the best type, and to make such additions and improvements as the taste of the trade and the wants of the country require, they flatter themselves that this establishment will merit a large share of patronage. They have now several founts on hand, which can be furnished at a few hours' notice, and are prepared to make founts of all weights and sizes, from Pearl to 22 lines Pica, including a variety of Ornamental Letter. Their assortment of Cuts, Dashes, Brass Rule, and other Ornaments, will be found to be very extensive, of which specimens will be forwarded to Printers as soon as they can be prepared.

Printing Presses of every description, Printing Ink of the most approved qualities, Composing Sticks, Brass and Common Galleys, Chases, Imposing Stones, Cases, Paper and Press Boards, Standing Presses, Furniture, together with a complete assortment of all articles used in a Printing Office, will be kept constantly on hand.

Small founts, suitable for Book Binders, in great variety, may be had when called for.

Orders from all parts in the Union will be promptly and most carefully attended to, and particularly in supplying *sorts* for all founts furnished by their predecessors, Binny & Ronaldson, and Richard Ronaldson.

PATENT PLANING MACHINE.—The right to use this valuable machine, invented and patented by William Woodworth, and known as Woodworth's Patent Planing Machine, may be obtained on application to the subscriber for the counties of Allegheny, Butler, Beaver, Washington, Green, Fayette, Somerset, Cambria, Indiana, Jefferson, Clearfield, M'Kean, Warren, Venango, Mercer, Crawford, and Erie, in the State of Pennsylvania. That part of Maryland lying west of the Blue Ridge; all that part of Virginia lying west of the Blue Ridge, except the county of Ohio. The whole of the state of Ohio except the counties of Hamilton, Butler, and Montgomery. The whole of the state of Kentucky, except the counties of Jefferson, Boone, Oldham, Gallatin, and Campbell. The whole of Indiana, except the counties of Floyd, Clark, Jefferson, Dearborn, and Switzerland. The whole of the state of Illinois, and the territory of Michigan. Rights to use the machine in that part of the United States, named above, will be sold by the single county or in larger districts. As it is presumed that no one will purchase without seeing the machine at work, a description of it is deemed unnecessary. Should any person, however, wish to purchase, and find it inconvenient to visit the places where it is in operation, a machine will be furnished, warranted to plane, tongue and groove, and bring to an exact width and thickness, a white pine board of 12 feet long, and of any width from 1 to 14 inches, in one minute and ten seconds, or an oak board of the same dimensions in 2 minutes and 10 seconds. Machines may be seen at work in the cities of New Orleans, Washington, Philadelphia, New York, Boston, and others at the south and east, at Wheeling, Virginia, and at the saw mill of Messrs. Irwin & Herron, in this city.

Persons desiring to purchase will have the certificates of scientific and practical men who have seen it at work, in the different places in which it has been put up, forwarded to them. They give their opinion as to the great value of the invention, state the time they have seen boards dressed by this machine, and describe the quality of the work as compared with that performed by hand labor.

VALUABLE PROPERTY FOR SALE.

THE Subscriber offers for sale the farm on which he lives, in Washington county, on Pigeon creek, one mile south of Williamsport, on the Monongahela river, to which there is a perfectly level road. This farm contains near 400 acres, the greater part of which is first rate land. There is on the premises a Brick Dwelling House, a Merchant mill, in good repair, a new saw mill, a stone still house, 35 by 40 feet; a salt works is also in operation, and worked to advantage; about 150 acres of land cleared and under good fence. There is on the premises three small tenements for the accommodation of families. This tract is well timbered, and abounds with stone coal and springs of water, both of the best quality.

To a person wishing to embark in a manufacturing business, and possessing capital, this would be a very desirable situation, having the advantage of both water power from Pigeon creek, and banks of the very best coal near to the works, and easy of access, and its vicinity to so navigable a river where articles of any kind are so cheaply transported to Pittsburgh.
